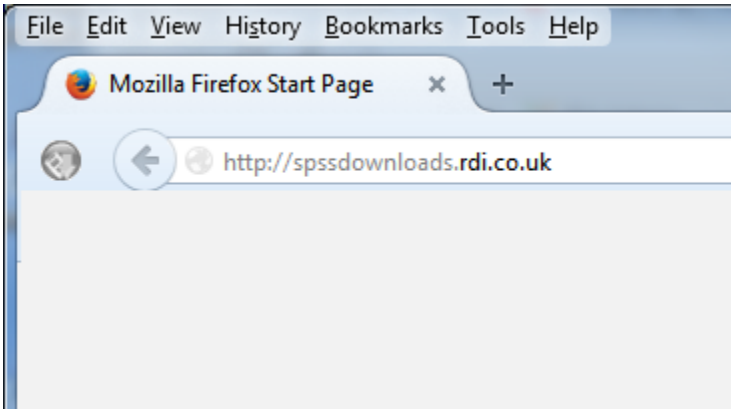
A quick SPSS download and installation guide for Arden University (RDI) students

To download the SPSS software provided to you by Arden University, please use the link: http://spssdownloads.rdi.co.uk

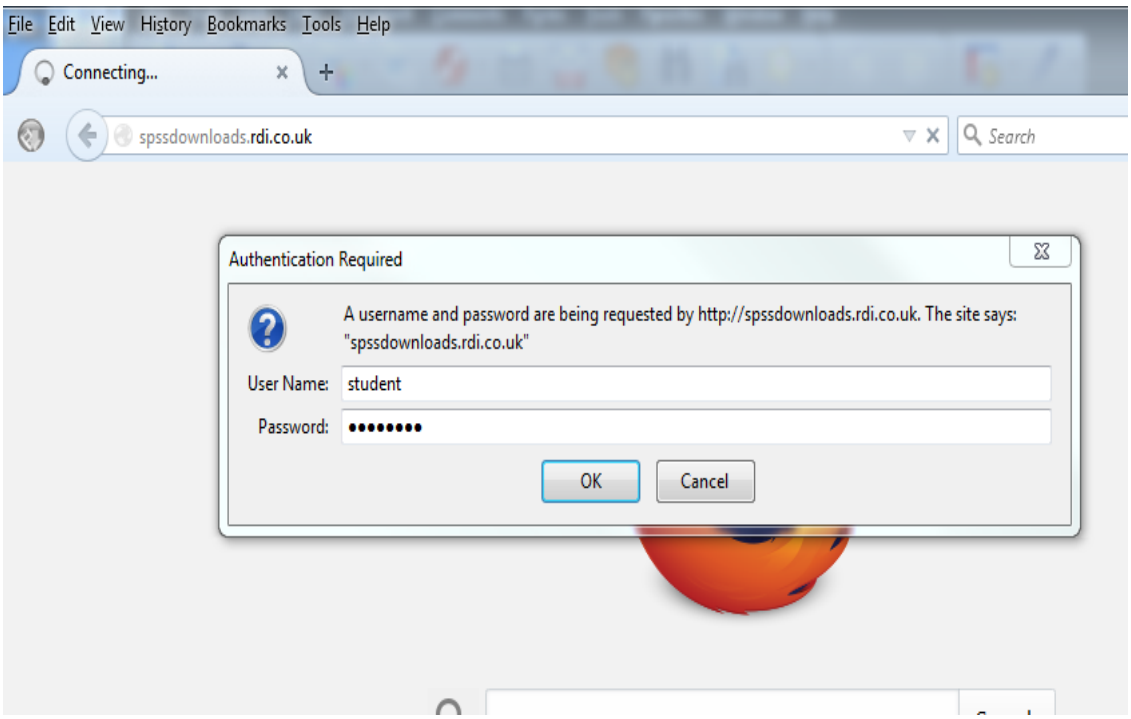


** Please note that this note was compiled for SPSS version 22. Installation for the new version (SPSS 23) should be identical.

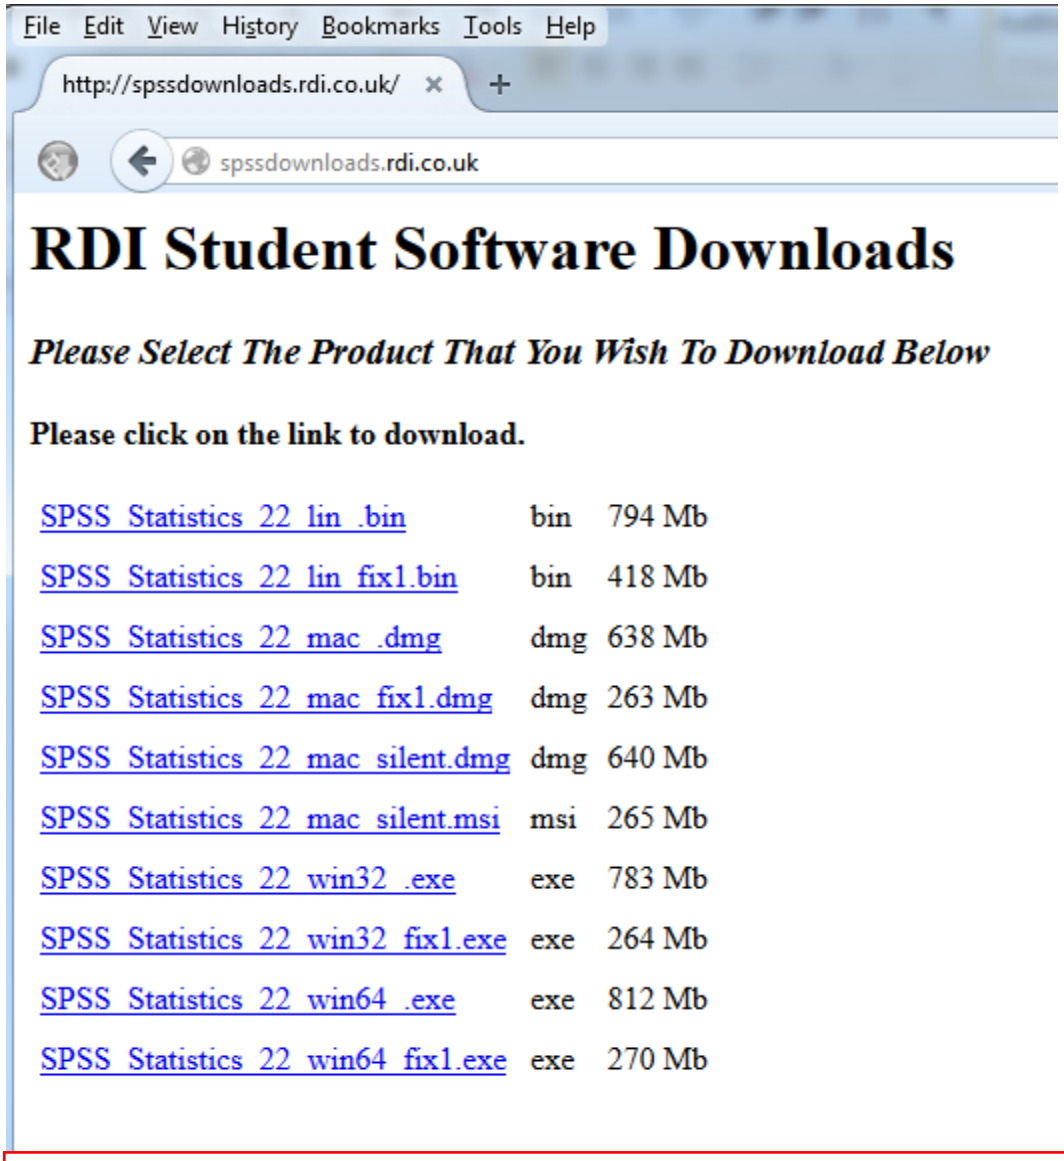
If you have the SPSS 22 installed, please uninstall that version before installing the new version.

7 Dec 2015

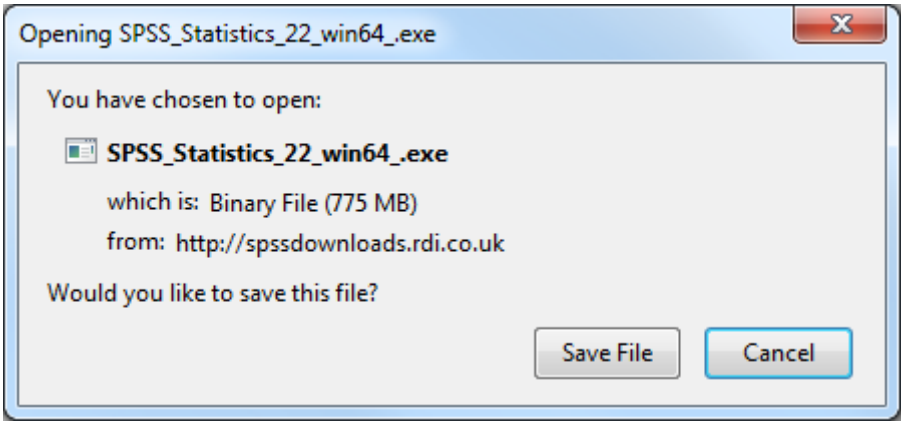
When prompted, please use the following account information to login:
User name: student
Password: 7yH3W5fg
* Remember the user name and password are case sensitive
** Please note that the user name and password might change from time to time and please look out for the latest announcements.



When successfully logged in, the following screen should be displayed offering a choice of options for different operating system.



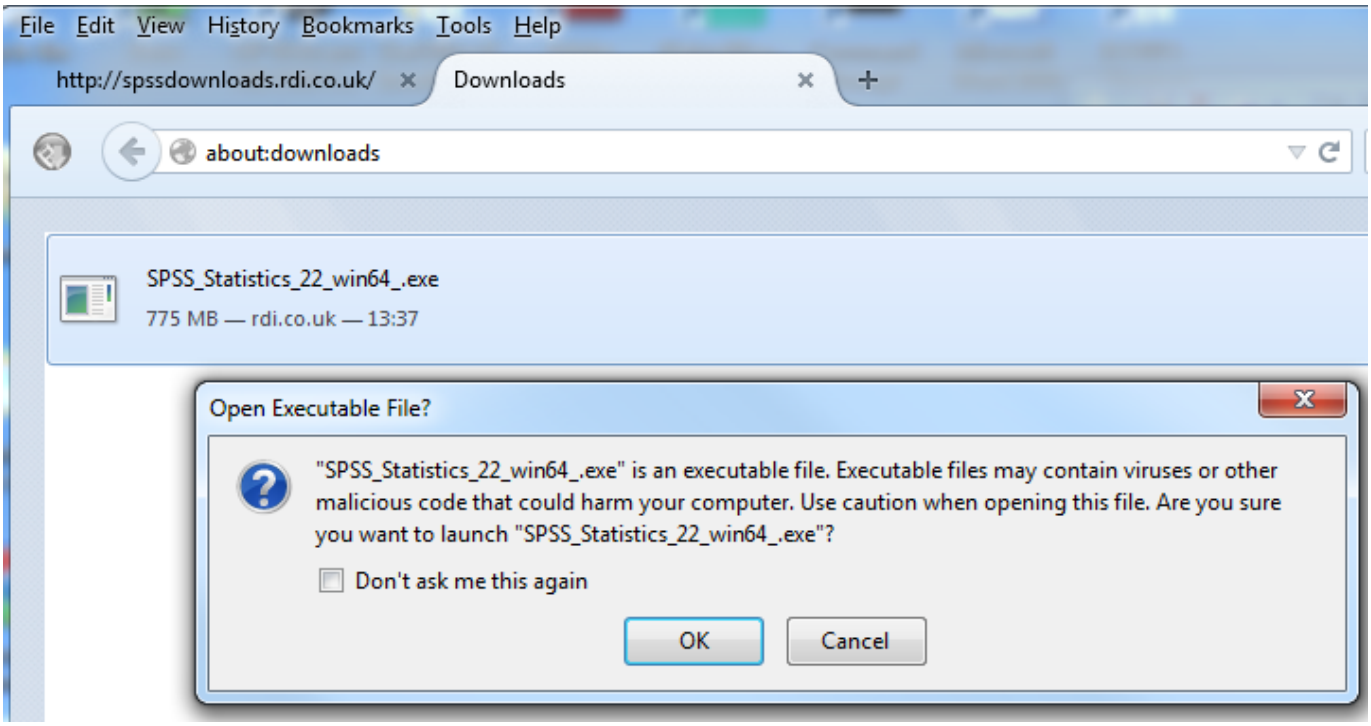
Select the version of SPSS for your operating system.
In the example here, the Windows 64 bits version has been chosen



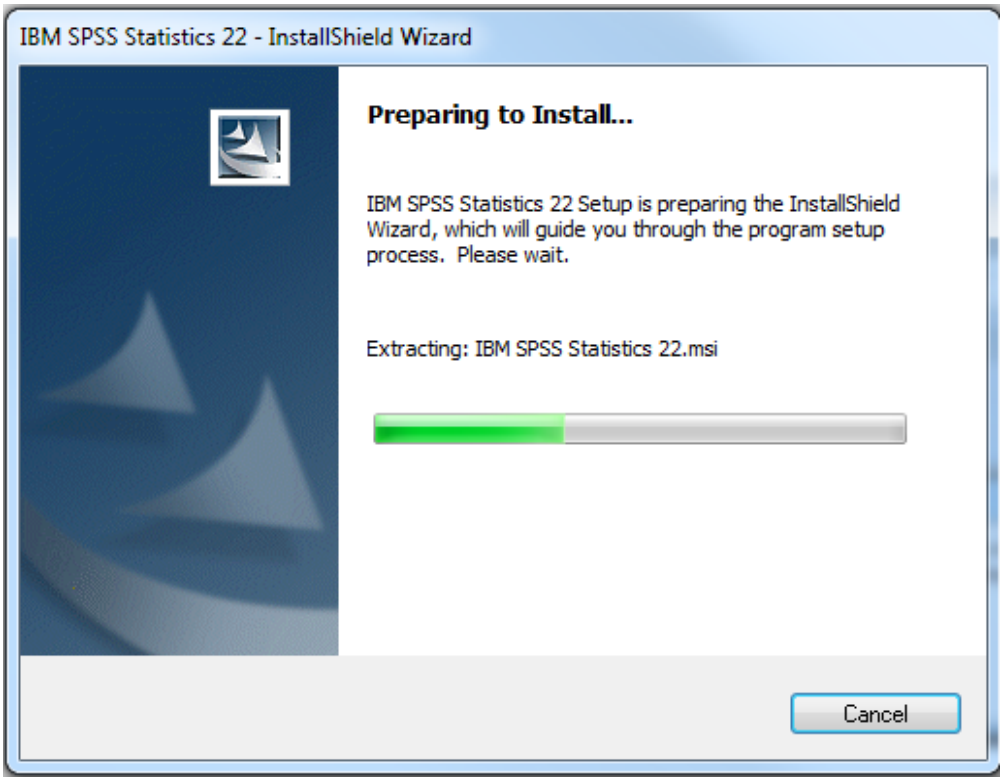
Due to the large file size, the download normally takes a long period of time. It will also depend on the speed of your internet connection.

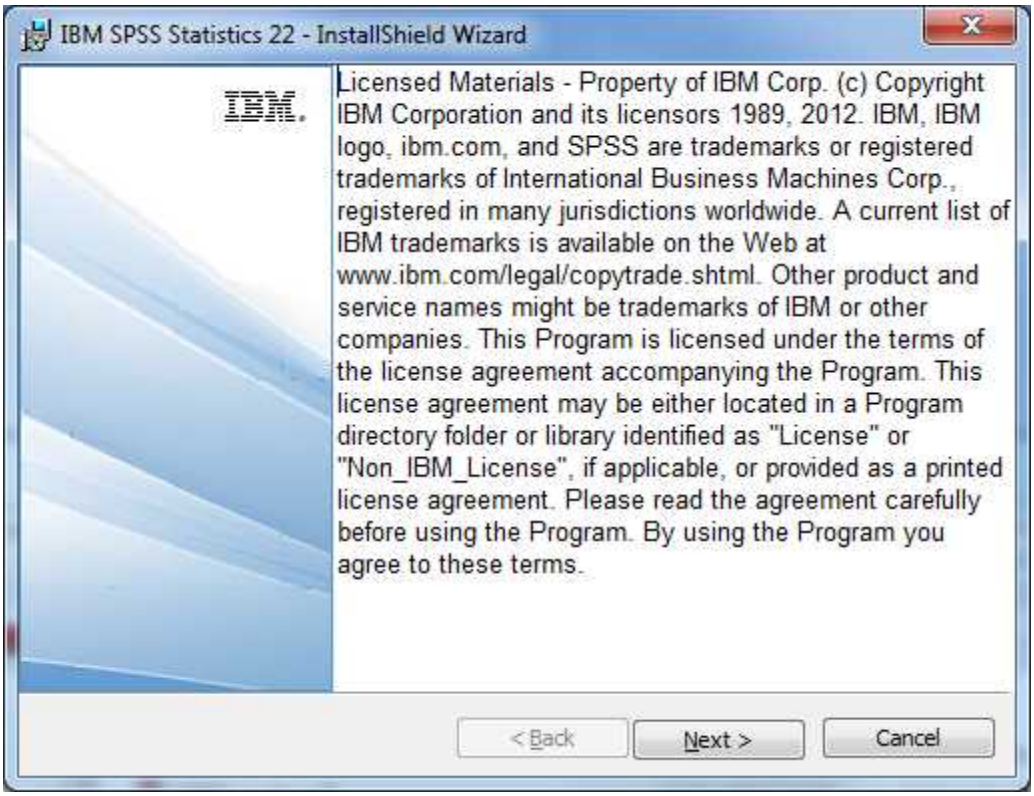
Please be patient.

Upon download completion, please click and install the program. You may need admin privileges for the installation.

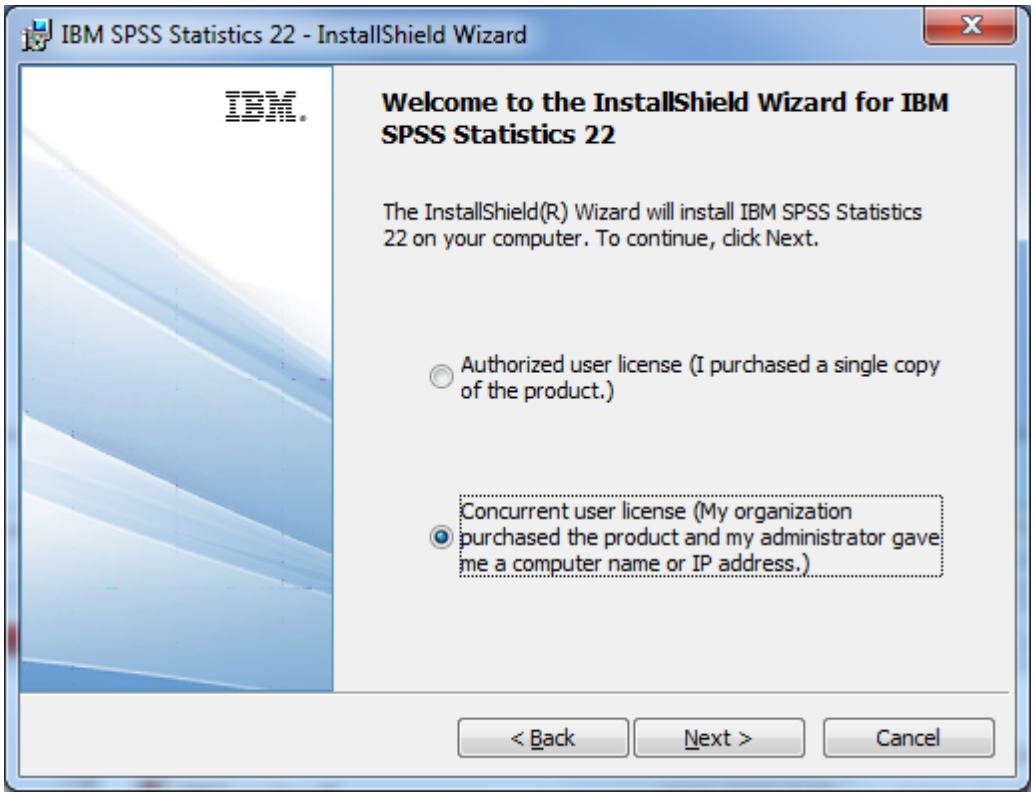


Please follow the on screen instruction to install SPSS

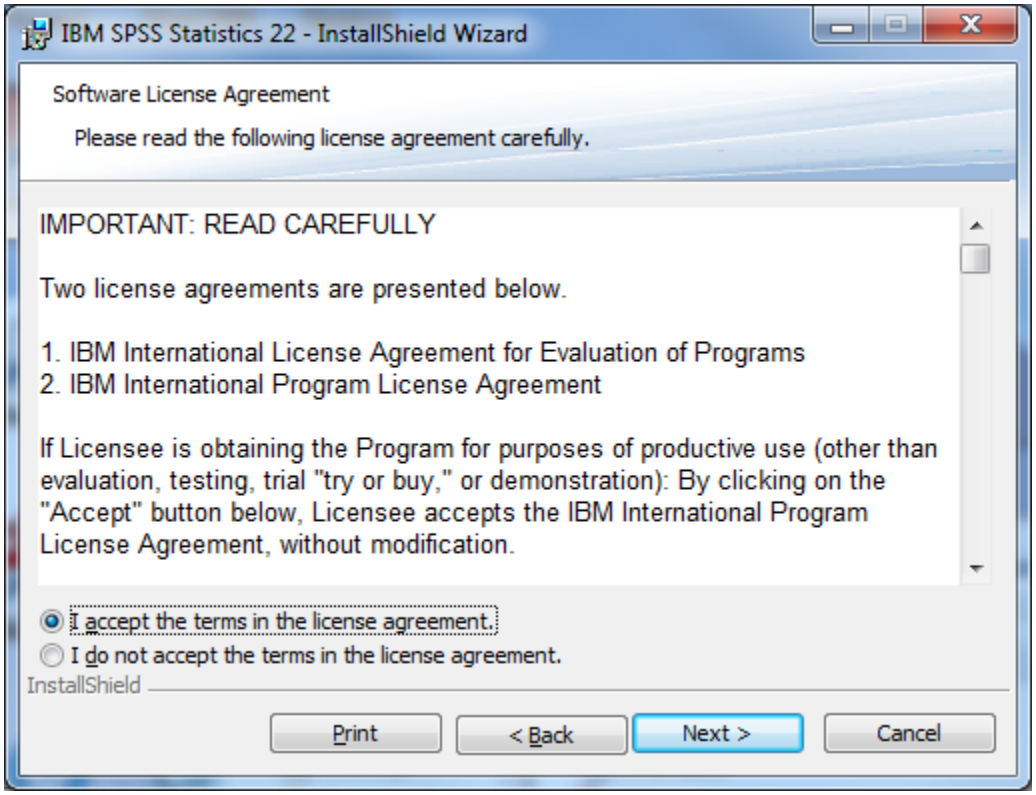




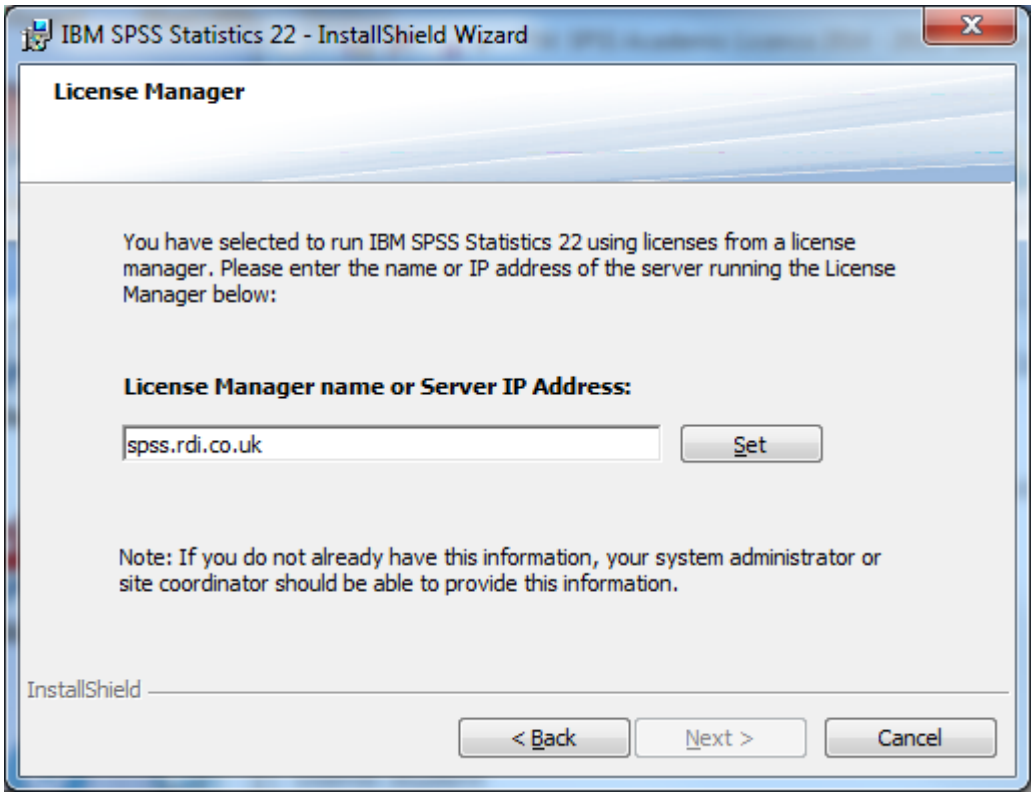
Choose the "Concurrent user license" on the following screen



Then "Accept " the terms of license agreement

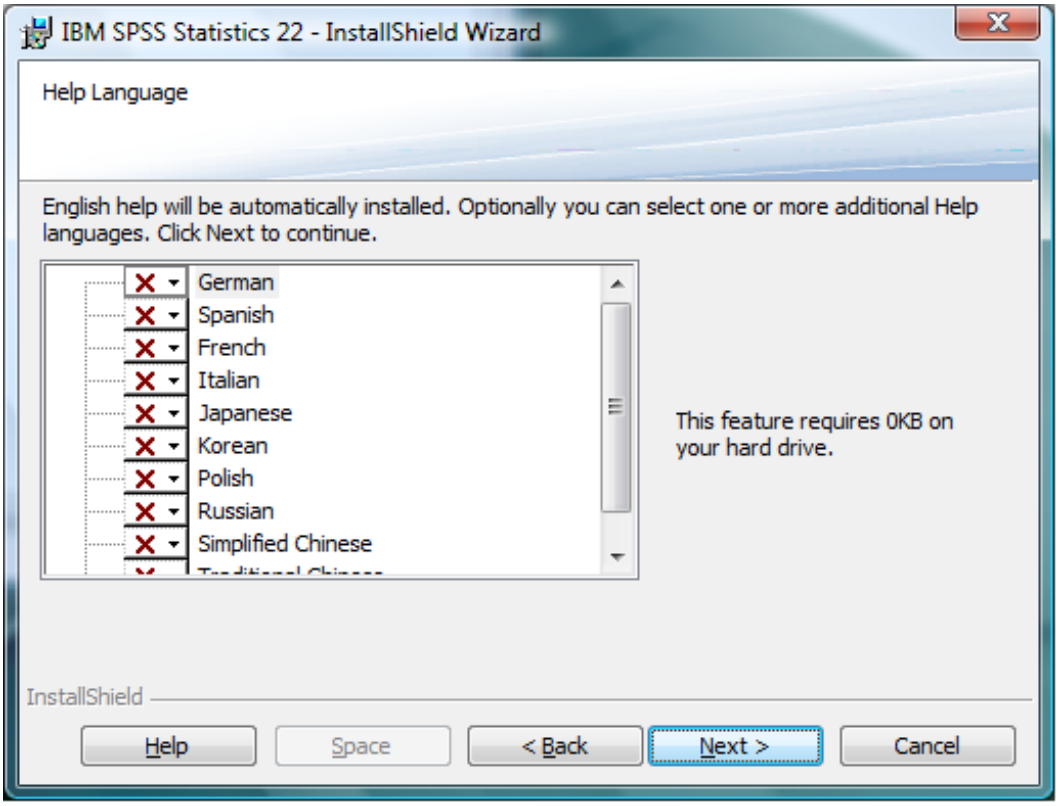


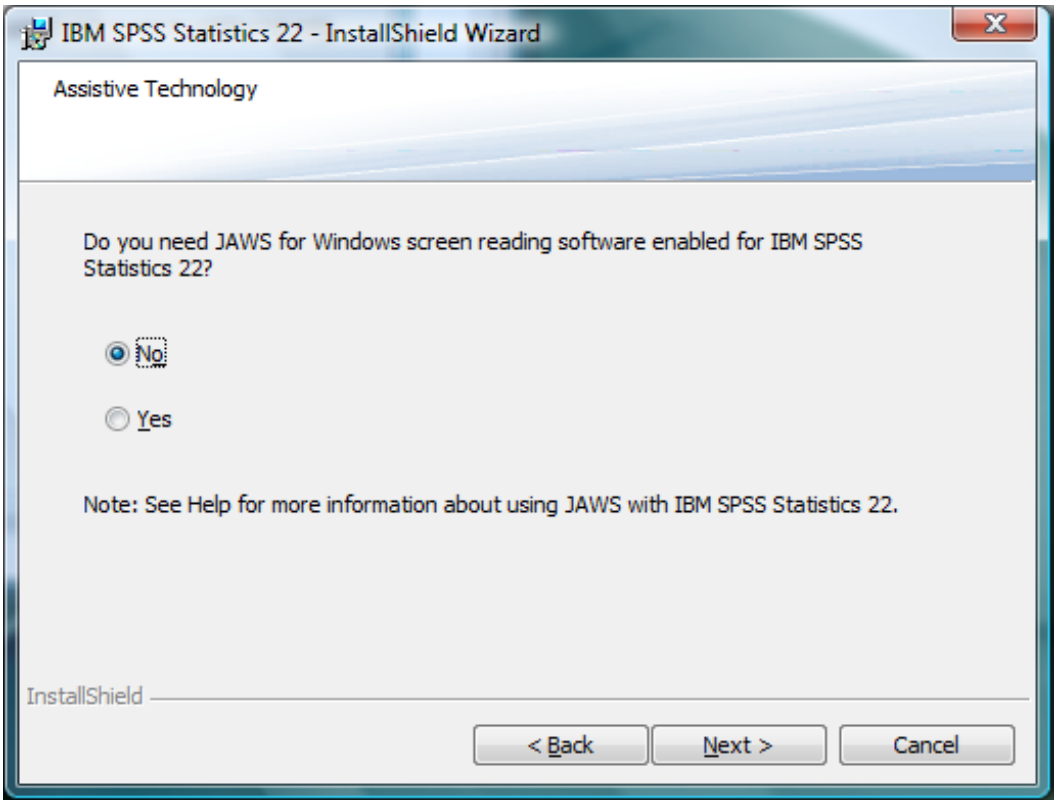
When prompted for the License Manager, please enter "spss.rdi.co.uk" as indicated

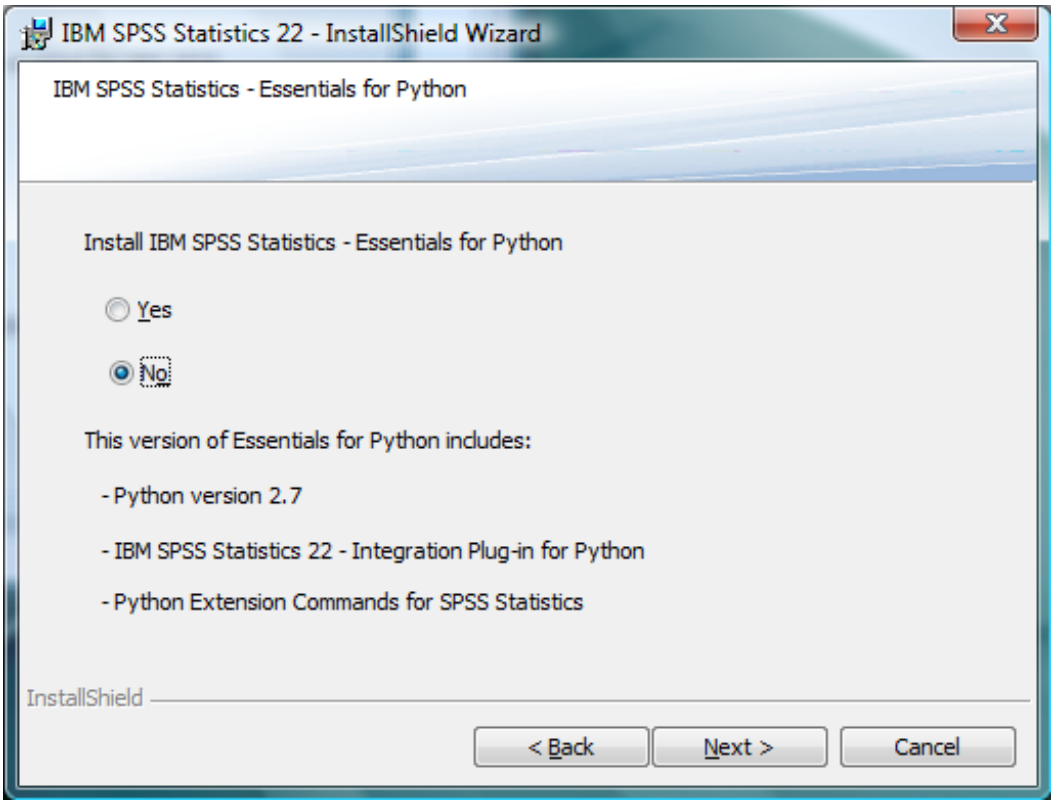


You should be prompted through the following screens for the installation.

Please choose the options that suit you or follow the following example.







IBM SPSS Statistics 22 - InstallShield Wizard
